# Rushikesh Deshmukh

"Backend Developer | Python, Flask, Django | Web Development |  
Machine Learning Enthusiast"  
Jalgaon, Maharashtra, India

## Summary

I am a passionate Backend Developer with hands-on experience in Python, Flask, and Django. Having completed internships in web development, I've built and deployed dynamic web applications, gaining a strong understanding of frontend and backend technologies. My technical expertise includes Python, web frameworks, REST APIs, SQL, and machine learning basics.

In addition to technical skills, I thrive in collaborative environments and am always eager to learn and innovate. My most recent project, a restaurant web application, allowed me to apply my skills in Python Flask and integrate payment gateways and reservation management systems.

I aim to join a forward-thinking company where I can continue to grow, contribute to impactful projects, and further develop my backend development and machine learning skills.

---

## Experience

### LetsGrowMore

Web Developer intern

December 2022 - January 2023 (2 months)

- Developed responsive web pages using React.js and integrated RESTful APIs for dynamic data handling.
- Improved website load speed by 20% through code optimization and efficient data retrieval processes.
- Collaborated with a team of 5 developers, utilizing Git for version control and project management.

### Oasis Infobyte

Web Developer intern

October 2022 - November 2022 (2 months)

Ethical Edufabrica Pvt. Ltd

Python Developer intern

February 2022 - April 2022 (3 months)

Designed and implemented backend solutions using Python for data processing and email automation with SMTP.

Developed scripts for data visualization and analysis, improving efficiency in handling large datasets.

Collaborated on back-end architecture for web applications using Python and Flask, focusing on scalability and performance optimization.

Gained hands-on experience in Python libraries such as Pandas for data manipulation and analysis.
